From its humble beginnings as a small part of the Gibson USA production facility to its present day home to some of Gibson's most talented and creative luthiers and craftsmen, the Custom Shop has astounded the guitar world since 1993. To celebrate the occasion of its 10th Anniversary, the Custom Shop created four guitars (to be released one per quarter in 2003) that will no doubt continue the tradition for collectors and players on their ears. Presenting our second Limited Edition instrument, the 10th Anniversary Les Paul Custom.

Each of the Custom Shop's 10th Anniversary guitars will be released in a Limited Edition of 30.
